

2200 Circuit Description

1.2200 is the main board of 69543. It contains a microchip which style is AT89S52, the Y1 is generated the 11.0592MHz clock signal to it.

2.69643 include 2200 main board, 0306 display board, auxiliary power supply circuit and 1902 EMI board. Display board and IGBT controlled by main board.
